WHO WE ARE

We're Yellow Bike. Among many other aspects of content creation, we focus on creating high quality art pertaining to cinema. Yellow Bike Films was founded in 2016. We started off making comedic sketches on our phones and editing through iMovie. Fast forward to today, we're a multinational award winning film production company. We're based here in Springfield, Missouri and have been practicing the craft ever since. In 2020, Yellow Bike Films released their first short film titled "ANATHEMA". Later in 2021, we released our short film "CHIMERA" into the festivals and it performed very well, winning over 5 awards for best direction and best film. It's now 2023 and we're close to releasing the prequel to CHIMERA. We also begin production on a short horror film we've been working on getting ready for titled "KNOCK" in late February. In 2023, we're more than just a film company. We'll be putting our time towards, of course, practicing our main passion through filmmaking, but also towards new avenues for the brand such as our YBP, a new podcast coming in July of 2023, our Patreon that's launching in March, our local presence in MO, smaller sketches on our YouTube, and even this inclusive magazine. There's so many other paths we're taking this year to push YB across the world on all platforms. We want to first establish YB in not only Springfield, but St. Louis and Kansas City as well. But why? Well, to simply be able to include more creative people within our company in every way we can. To help ARTISTS, our COMMUNITY, and our COMPANY grow TOGETHER. A YB team in STL & KC to direct films, to produce a magazine, to literally produce any content they want to make under the umbrella that is Yellow Bike.

Let's build and grow as artists together.

A CHIMERA STORY

Yellow Bike just got back the final cut of "PITIFUL, LOST CREATURE: A CHIMERA STORY" from our talented friends and editors at Prequel Creative in St. Louis and it's a spectacle!

"A new, deadly virus unfolds during a neophyte creatures invasion of another's turf in this small town while wreaking havoc on local citizens and blowing the cover of the native."

We will be screening this 25 minute short film at the Moxie Cinema in the upcoming weeks. We'll announce dates and times soon! Join our Patreon to get free tickets!

We shot the entirety of this film in the beautiful city of Springfield, showcasing wonderful locations like C-Street, a Springfield famous area filled with amazing food and fun shops. We also showcase the downtown area such as The Fox Theater and The Square across the street. Sequiota Park, a gorgeous park with caves, is another beautiful place we were able to get some nice footage at. If you're a localite of Springfield, you'll appreciate the thoughtful shots we were able to catch. Be on the look out for "PITIFUL LOST CREATURE" screening at the Moxie Cinema in Springfield, MO.

SOUNDS OF 417

MOLLY HEALEY

A ONE-WOMAN ORCHESTRA

A fan once lovingly stated that Molly brings the orchestra to the live rock show, and it's a descriptor that has stuck over the years. As a longtime fiddle player for the Ozark Mountain Daredevils who morphed into a powerhouse experimental songwriter, Molly Healey began her solo career in 2015 after buying a simple looping pedal. She immediately found a passion for blending her strings and voice together into atmospheric and experimental orchestral folk songs, and her first compositions were featured on her debut solo album, *Nightbirds*. She has since recorded 3 more albums, each growing in intensity and instrumentation, and the most recent of which, *Lotus*, is being released November 19th, 2022. She has grown from the stripped-down looping solo set, to a roster of original music and choice covers that she often performs with a full electric band. She plays a dazzling variety of instruments: cello, violin, guitar, and piano, all while experimenting with various other sounds looping in Ableton Live. Molly also showcases her talent through her work in Film Scoring. She recently worked with Yellow Bike Films in creating such a original and moving score for their new film "PITIFUL, LOST CREATURE". Molly has proven to not only Springfield, but to the world, that her work is sought after and extremely valuable. Scan Molly's QR code and listen to her wonderful music and check out her work in the film industry.

Nick is a mixed media sculptor based in downtown Springfield Missouri. His artistic style is diverse, though centered around his vast experience and knowledge of welding and iron work. Nick received his Bachelors of Fine Art-Sculpture degree in 2006, also minoring in Art History and Native American Studies. Nick provides everyone in downtown Springfield with beautiful visuals through his interesting and thought-provoking sculptures. Nick Willett currently shows work at various galleries and public installations (both permanent and temporary) in the Midwest and is currently branching out nationwide. He describes his art as "the physical manifestation of my dreams, thoughts, and personal experiences expressed through meticulous exploration of process and material. My approach is a game of engineering, intended to blend organic form with geometric balance from the perspective of a creative problem solver. Each piece mimics nature, yet is industrial in its permanence and durability."

Andy Compton is an Asian American writer and director from the heart of the Midwest—St. Louis, Missouri. Once a hard-partying high school dropout from a dysfunctional home, Andy found sobriety in his late-20s, turned his life around, and went on to graduate Cum Laude from Webster University with a BA in Scriptwriting and a Minor in Film and Television Production. This sense of sweeping transformation often finds its way into his work, as his characters navigate small-town worlds in search of their own larger-than-life triumphs, through which Andy balances his comedic sensibility with dramatic storytelling—shining a light on topics such as class struggle, addiction, and other dark aspects of life in the working-class Midwest. During his time in film school, he wrote both of his 2021 Nicholl Semifinalist features, SUPLEX (Top 50) and BELLYACHE (Winner of Script Pipeline’s First Look Competition). In 2022, he wrote and directed, ETHAN AND EDNA, an Official Selection of the Oscar-qualifying St. Louis International Film Festival. Andy is represented by Jarrod Murray at Epicenter Management.
