WHO WE ARE

We're Yellow Bike. Among many other aspects of content creation, we focus on creating high quality art pertaining to cinema. Yellow Bike Films was founded in 2016. We started off making comedic sketches on our phones and editing through iMovie. Fast forward to today, we're a multinational award-winning film production company. We're based here in Springfield, Missouri and have been practicing the craft ever since. In 2020, we released our first short film titled "ANATHEMA". Later in 2021, we released our short film "CHIMERA" into the festivals and it performed very well, winning over 5 awards for best direction and best film. It's now 2023 and we just screened the prequel to CHIMERA, PITIFUL, LOST CREATURE. Our new short film "BRINE" comes out the second week of June. Go watch "BRINE" at the Moxie May 7th.

In 2023, we're more than just a film company. We'll be putting our time towards, of course, practicing our main passion through filmmaking, but also towards new avenues for the brand such as our YBP, a new podcast coming in July of 2023, our Patreon, our local presence in MO, smaller sketches on our YouTube, and even this inclusive magazine. There's so many other paths we're taking this year to push YB across the world on all platforms. We want to first establish YB in not only Springfield, but St. Louis and Kansas City as well. But why? Well, to simply be able to include more creative people within our company in every way we can. To help ARTISTS, our COMMUNITY, and our COMPANY grow TOGETHER. A YB team in STL & KC to direct films, to produce a magazine, to literally produce any content they want to make under the umbrella that is Yellow Bike.

Let's build and grow as artists together.

Christian Wood directs "BRINE", a short film created for the SAT048 Film Festival, right here in Springfield. SAT048 is an amazing competition that challenges filmmakers to create a 5 minute short film under specific prompts. Yellow Bike Films created an extremely original piece, and it does get extreme. You can watch the 5 minute version MAY 7th at The Moxie, in downtown Springfield. The 12-minute directors cut, which has much more detail, dialogue, and thoughtful cinematography. Join the Yellow Bike Patreon and get early access to the directors cut of BRINE.

MISTY LANE

A rising artist in Springfield, Misty Lane, had her first art exhibit last December at the Park Central branch library as a collaboration with Astro-photographer Andrew Mann. RYAN SMITH

Here is one of Springfield's rising film directors that you must know. This is Ryan Smith, writer and director of "Eldritch, USA" the horror/musical feature film that just premiered at The Alamo Drafthouse here in the 417. Ryan proved with this beautiful, engaging, horrific and comical piece that his ideas are valuable in this community. Smith has worked on several short films in the VFX department but decided it was his turn to develop something amazing. A feature film is no easy feat and Ryan couldn't have made a better picture with the endeavor that was "Eldritch, USA". He's shown a lot of his colleagues and fellow artists what he's capable of, and if you've ever worked on a feature film, you know that this is incredible work that we should all be engaging with. Right now, Ryan has "Eldritch, USA" entered into many film festivals and we hope he wins every single category, because this piece deserves it. Scan Ryan's QR code and learn more about this brilliant director.

Below the sky, a city is illuminated at night, with lights reflecting on a body of water. In the foreground, two silhouetted figures stand on a dark hillside, looking out over the city and the sky. The figure on the left has their hands on their hips, while the figure on the right stands with their hands at their sides.

One of the most interesting, unique and original artists we have come across in a while is Alan Leonardo and Dioxide Media. This Houston based illustrator, animator, and filmmaker has a clear vision for what he wants within his creations and we love watching and looking at what he develops and designs. Alan owns Tiki Paradise Productions, an upcoming production company that focuses on animation, voice work, and film. This is an artist who truly deserves a spotlight as his work is thoughtful and original which can be hard to come by these days. Alan is definitely a rarity because of how well his work will undoubtedly stand out from the rest and we think it's a tragedy to not immerse in an artist like this. His films are refreshing and his style is unlike anything we've come across. Check out Alan's graphic designs, animations and films by scanning his QR code and learn more about one of the most interesting creatives we've been able to meet.
